

Early Learning Sheet 6

Insect Shapes Butterflies and Moths

Here are five different moths and four butterflies. Look at how they each hold their wings in different resting positions. Butterflies are much easier to see in the daytime than moths, but moths are sometimes found resting on fences and tree trunks.

- 1. Plume Moth
- 2. Leafminer
- 3. Hawk-moth
- 4. Carpet moth
- 5. Quaker moth
- 6. Skipper
- 7. Painted Lady
- 8. Brown
- 9. Hairstreak
