

# Sherwood Forest Arachnids

Historical and modern species lists and records - First Edition 2009

*T. and D. Pendleton*

## Introduction to Sherwood Forest Arachnids First edition 2009

This publication continues the sourcing and collating into single respective documents, the records of most invertebrate groups occurring within the Sherwood Forest NNR. Sherwood Forest Arachnids follows similar publications on Coleoptera and Lepidoptera, the first editions of which were published in early 2009.

This first edition of Sherwood Forest Arachnids produces historical records from the mid-1800's onwards and includes the latest modern records up to 2008.

*Trevor and Dilys Pendleton*

## Arachnid surveys and recorders

Arachnids have rarely been studied and recorded in the same way as other orders such as Coleoptera and Lepidoptera have at Sherwood Forest.

Most of the historical records sourced from Carr's "*The Invertebrate Fauna of Nottinghamshire*" are attributed to G.W. Chaster and dated 1904, but the considerable lack of recording is evident when no further records appeared before surveys by J. Crocker in 1977 and 1978.

The most recent work was by M.L. Denton, E.J. Green, D.G. Hemingway, G. Legg, D.R. Nellist, and Sharp, D. who surveyed the Country Park and Buck Gates areas of the Birklands and Bilhaugh SSSI in 2002. The latest survey work was at Sherwood Heath SSSI by Godfrey, A. in 2003.

## Included records and recording boundaries

Due to a legal loophole, Natural England had to notify the ancient Sherwood Forest area as two separate Sites of Special Scientific Interest (SSSI) which they continue to regard as representing the whole of the Birklands and Bilhaugh (Sherwood Forest) complex. The two SSSI's are known as Birklands and Bilhaugh and Birklands West and Ollerton Corner. We have included detailed maps of both SSSI's in this edition, which also sees the inclusion of all Coleoptera records from both SSSI's. Records which were sourced to specific areas within either SSSI and where known, are published.

Records are now included from the following sites located within the two SSSI's.

### Birklands and Bilhaugh SSSI

Budby South Forest  
Proteus Square  
Buck Gates

### Birklands West and Ollerton Corner SSSI

Sherwood Heath  
Clipstone Old Quarter

To save space in the records section, we have had to abbreviate location specific records down to individual areas of both SSSI's.

Consequently, a record from Proteus Square would be abbreviated to *Birklands and Bilhaugh / Proteus Sq.* or a record from Sherwood Heath would be abbreviated to *Birklands West / Sherwood Heath* etc. Any other records shown only as Birklands West and Ollerton Corner, are from areas away from Sherwood Heath and Clipstone Old Quarter and are largely attributable to areas situated to the west of the Country Park. At the current time, it is thought impractical to abbreviate all of the known sites within the SSSI's and this also serves to avoid the records becoming over complicated to the reader.
